

RADIANT FLOORS

A floor heating system from Radiant Floors will ensure a uniform distribution of heat in your home or office, and a comfortable warmth which is easy to control room by room. The Radiant Floors wide range of cables & heating mats are designed for both renovation and New Build applications.

The Radiant Floors RFM undertile heating mat range is available in two versions :- 150w/m², and a 200w/m² version for conservatory floors and rooms with a higher heat loss
